Morison International: Doing Business Guide Switzerland

Dear Sir or Madam,

Over the last few years, artax Fide Consult AG has consistently focussed on international matters, with the emphasis on international tax law. As a consequence, our whole company's communication is multi-lingual; our homepage has a bilingual set-up (German & English), and we offer consultancy in English, French and German. We offer cross-border consultancy in cooperation with companies belonging to our partner network [Morison International](#). Thanks to this structure, we are able to solve international problems quickly and efficiently, in the field of tax laws, civil rights, corporate laws, or financial accounting and auditing.

Morison International publishes international information on a regular basis, in particular the popular "Doing Business Guides" with country-specific content. The latest issue is the "[Doing Business Guide Switzerland](#)" (issue 2015), by Morison's three Swiss partners. On our [homepage](#) you may also find further Doing Business Guides for many other countries.

artax regularly participates in European and international Morison conferences. Additionally, our senior partner heads the tax interest group, and also organises the tax expert group for conferences.

We would like to recommend reading this country-specific information and look forward to helping you in international matters.

Kind regards
artax Fide Consult AG
