CH/DE Exchange Day - Reunion after 4 years

Dear Ladies and Gentlemen

A big thank goes to our German Morison partner, [RIEDLINGER Partnergesellschaft mbB](#), for the warm welcome at our traditional meeting to exchange the current tax situations in Germany and Switzerland.

We are very grateful for the friendly and competent exchange and the long-standing cooperation with a team of tax experts in Germany, with whom we are able to master all the hurdles of cross-border taxation DE/CH together.

The topics on this exciting day were mainly:

From a German perspective

- The corporate forms in Germany (in particular the constellation of the GmbH & Co. KG, which is unknown to us Swiss)
- The revision protocol to the DBA CH/DE of 21.08.2023

From a Swiss perspective

- The Swiss withholding tax reform as of 01.01.2021
- The current changes in Swiss VAT

Together

- Home office in the post-Covid world in both countries

Once again it has been shown that the cooperation within the framework of our membership of Morison Global <https://www.morisonglobal.com/> is invaluable for us as well as for all our clients with international connections.

We are already looking forward to our next meeting with our colleagues from Freiburg.

Best regards
